Look Again in Kansas.

Know The Signs

What To Look For ▶ ▶ ▶

Children living in drug-endangered environments, or with one or more caregivers with an SUD, may exhibit signs of physical and emotional trauma as a result of direct abuse from a caregiver or as a result of neglect. Knowing how to spot signs of physical or emotional abuse is a first step to helping children and their families.

A circular inset image shows a woman with dark hair and a young girl with curly hair looking at a book together. The woman is pointing at the page, and the girl is smiling and gesturing with her hand. The background is a blurred classroom setting.

**LOOK
AGAIN**
Be the Difference.

**Hope starts when we look closer.
Show them you see them.**

In The Home

- ▶ Signs of violence (holes in walls, damaged household items)
- ▶ Signs of substance misuse (paraphernalia, lighters, meds or illicit substances accessible to children)

At School

- ▶ Child is tired, lacks emotional control
- ▶ Chronically dirty clothing
- ▶ Inappropriate interpersonal behavior

At The Doctor

- ▶ Bruises, welts, or uncommon bite marks
- ▶ Distrustful of doctors or nurses
- ▶ Appearing frightened of a parent or caretaker
